

Monthly Training Grant Breakfasts, Fall 2022

Selected Wednesdays at 9:00 AM (unless otherwise noted)

September 7, 2022

Topic: Mentorship vs. Sponsorship. Cara Wellman will lead us in a discussion of what it takes/what is expected in the training of graduate students and postdocs. Trainees and faculty are encouraged to share their views in what should be a lively conversation!

October 5, 2022

Speaker: Dr. Greg Lewis, Assistant Research Scientist, Kinsey Institute; Assistant Professor of Intelligent Systems.

Topic: Greg will tell us of his work on bioengineering techniques to collect and analyze human physiological signals.

November 2, 2022

Speaker: Dr. Cris Ledón-Rettig, Assistant Professor, Biology.

Topic: Cris will tell us about her work on interactions between environmental and endogenous signals in generating phenotypic variation.

December 7, 2022

Topic: Sex vs. gender in non-human animals. Justin Garcia and Ellen Ketterson will help us chat about this complex issue. Readings will be provided ahead of time to prepare for the conversation.
